

Work Package 3 is led by the Montanuniversität Leoben (Austria)

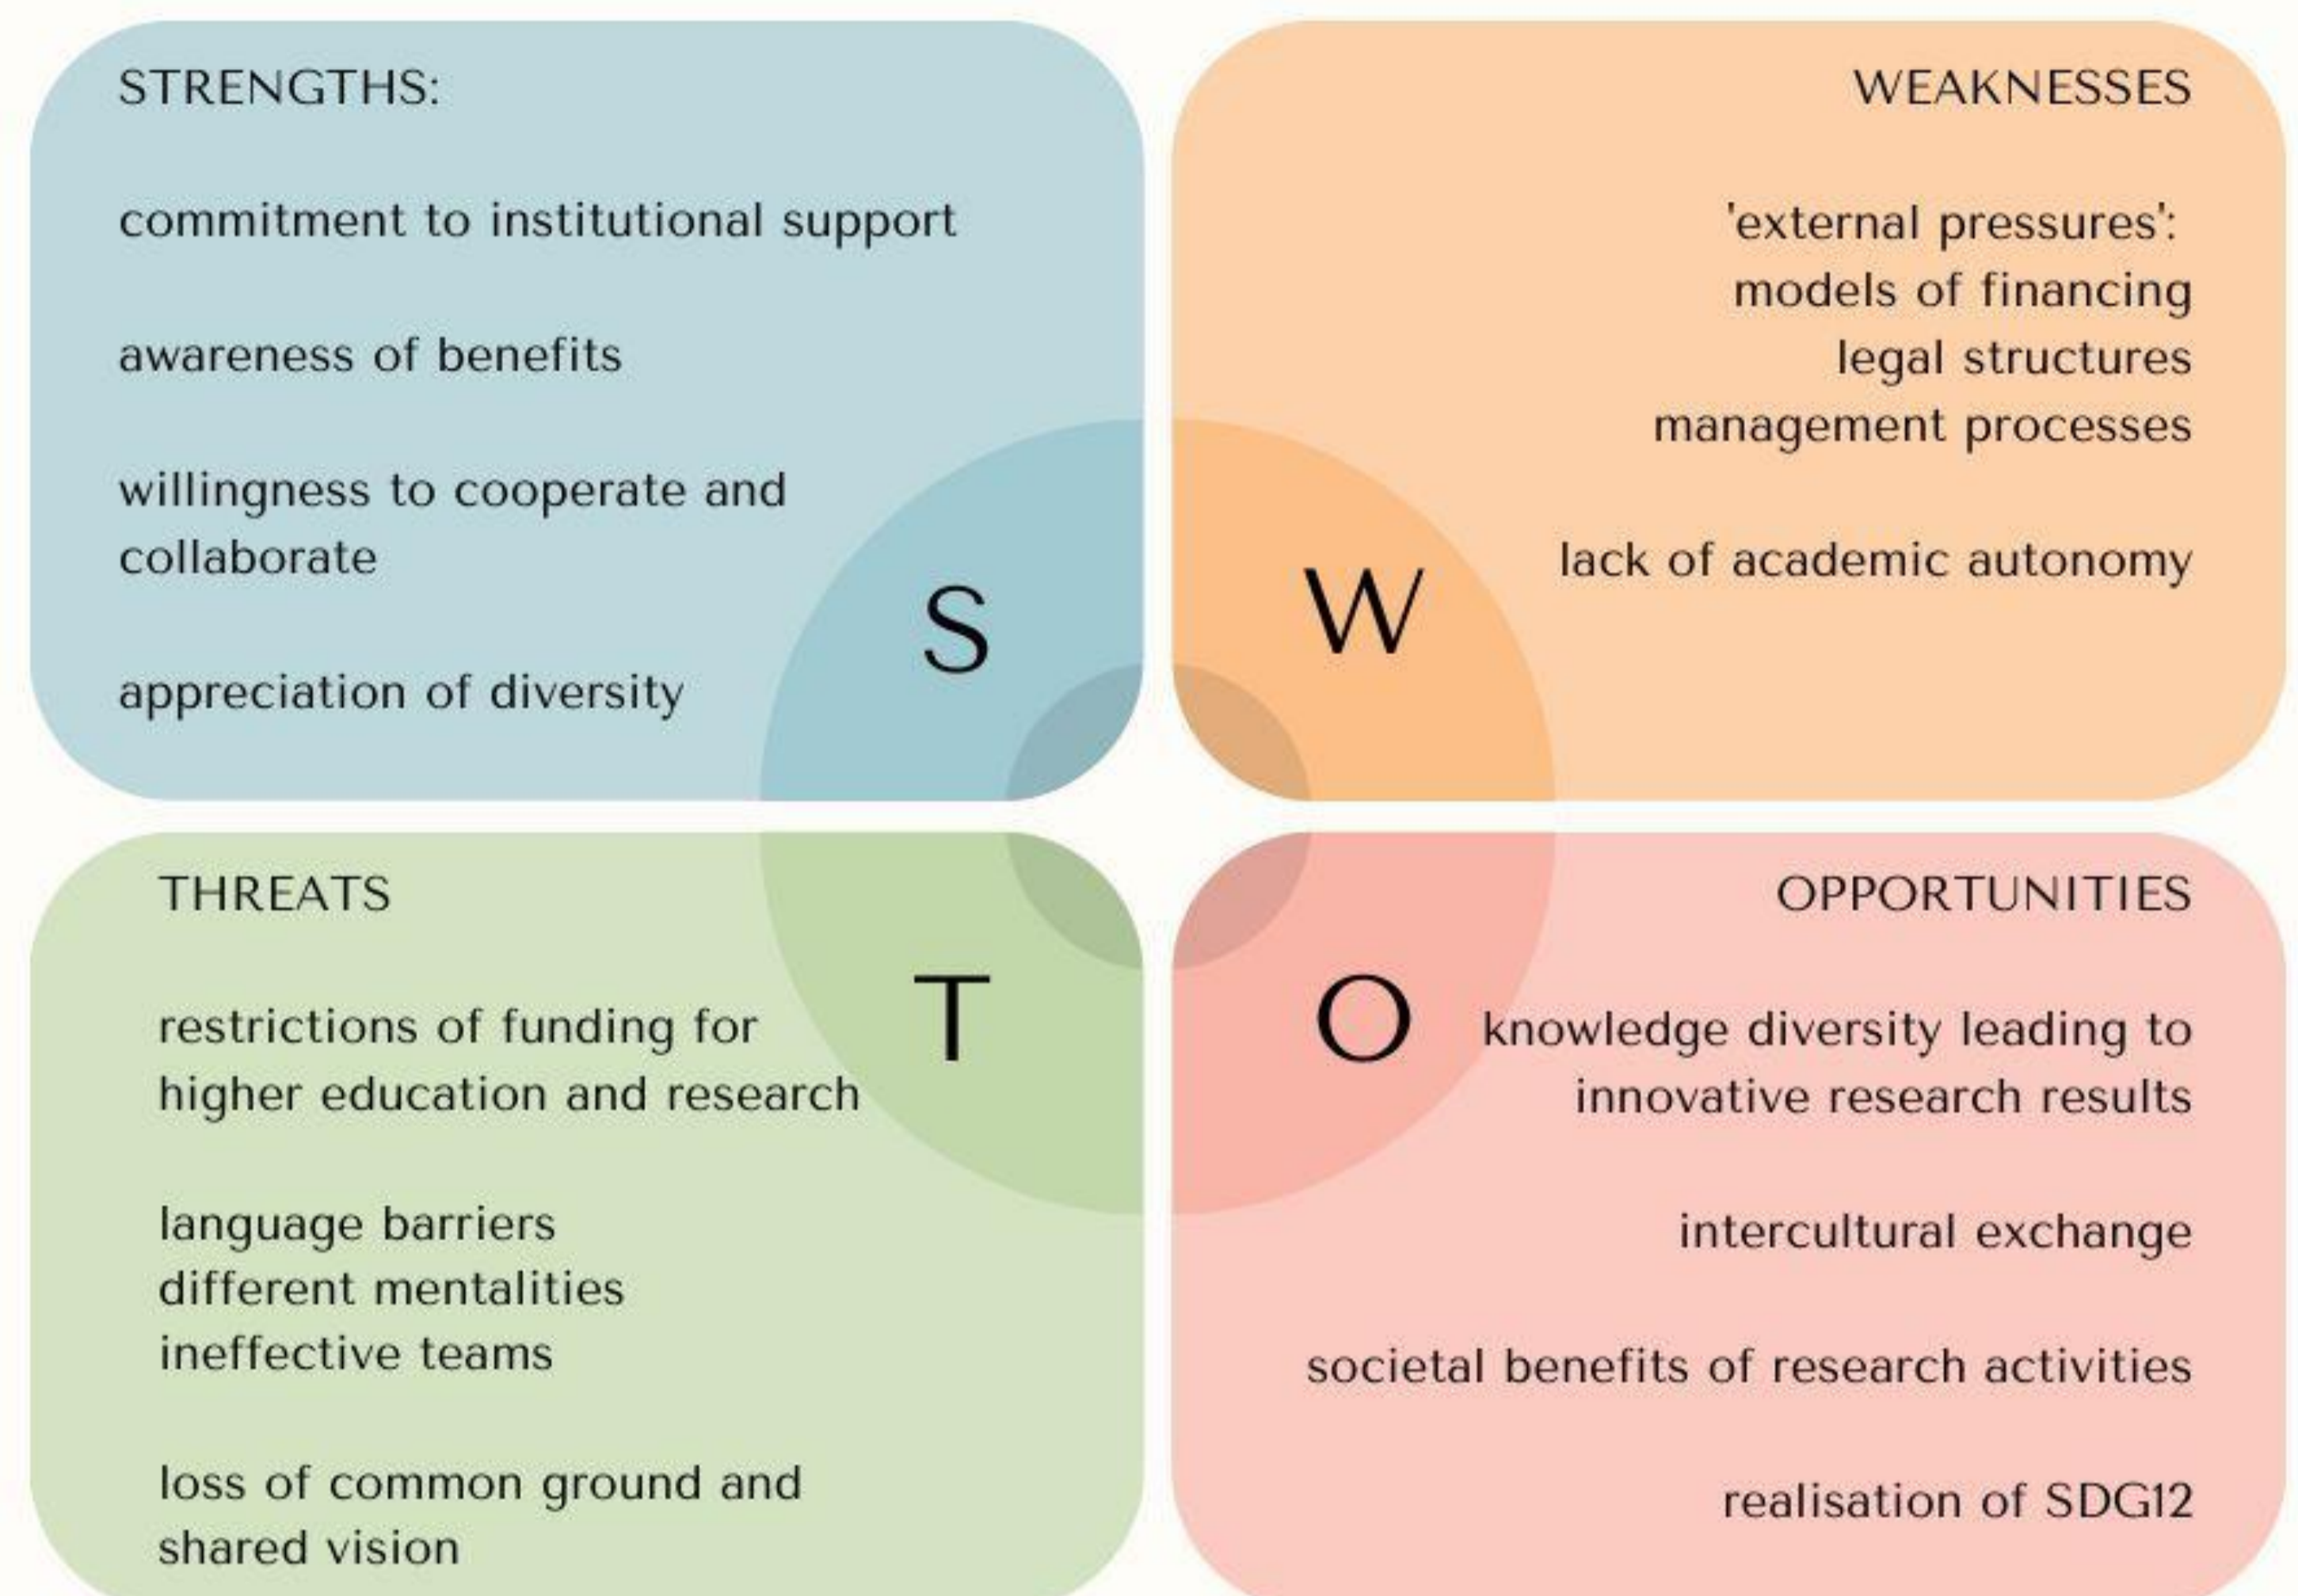

OVERVIEW

Cross-disciplinary modes of collaboration are taking on an increasingly important role in the European research context. *WP3 European Research and Open Science Collaboration* examines current cognitive and practical approaches to inter- and transdisciplinary scientific collaboration across EURECA-PRO.

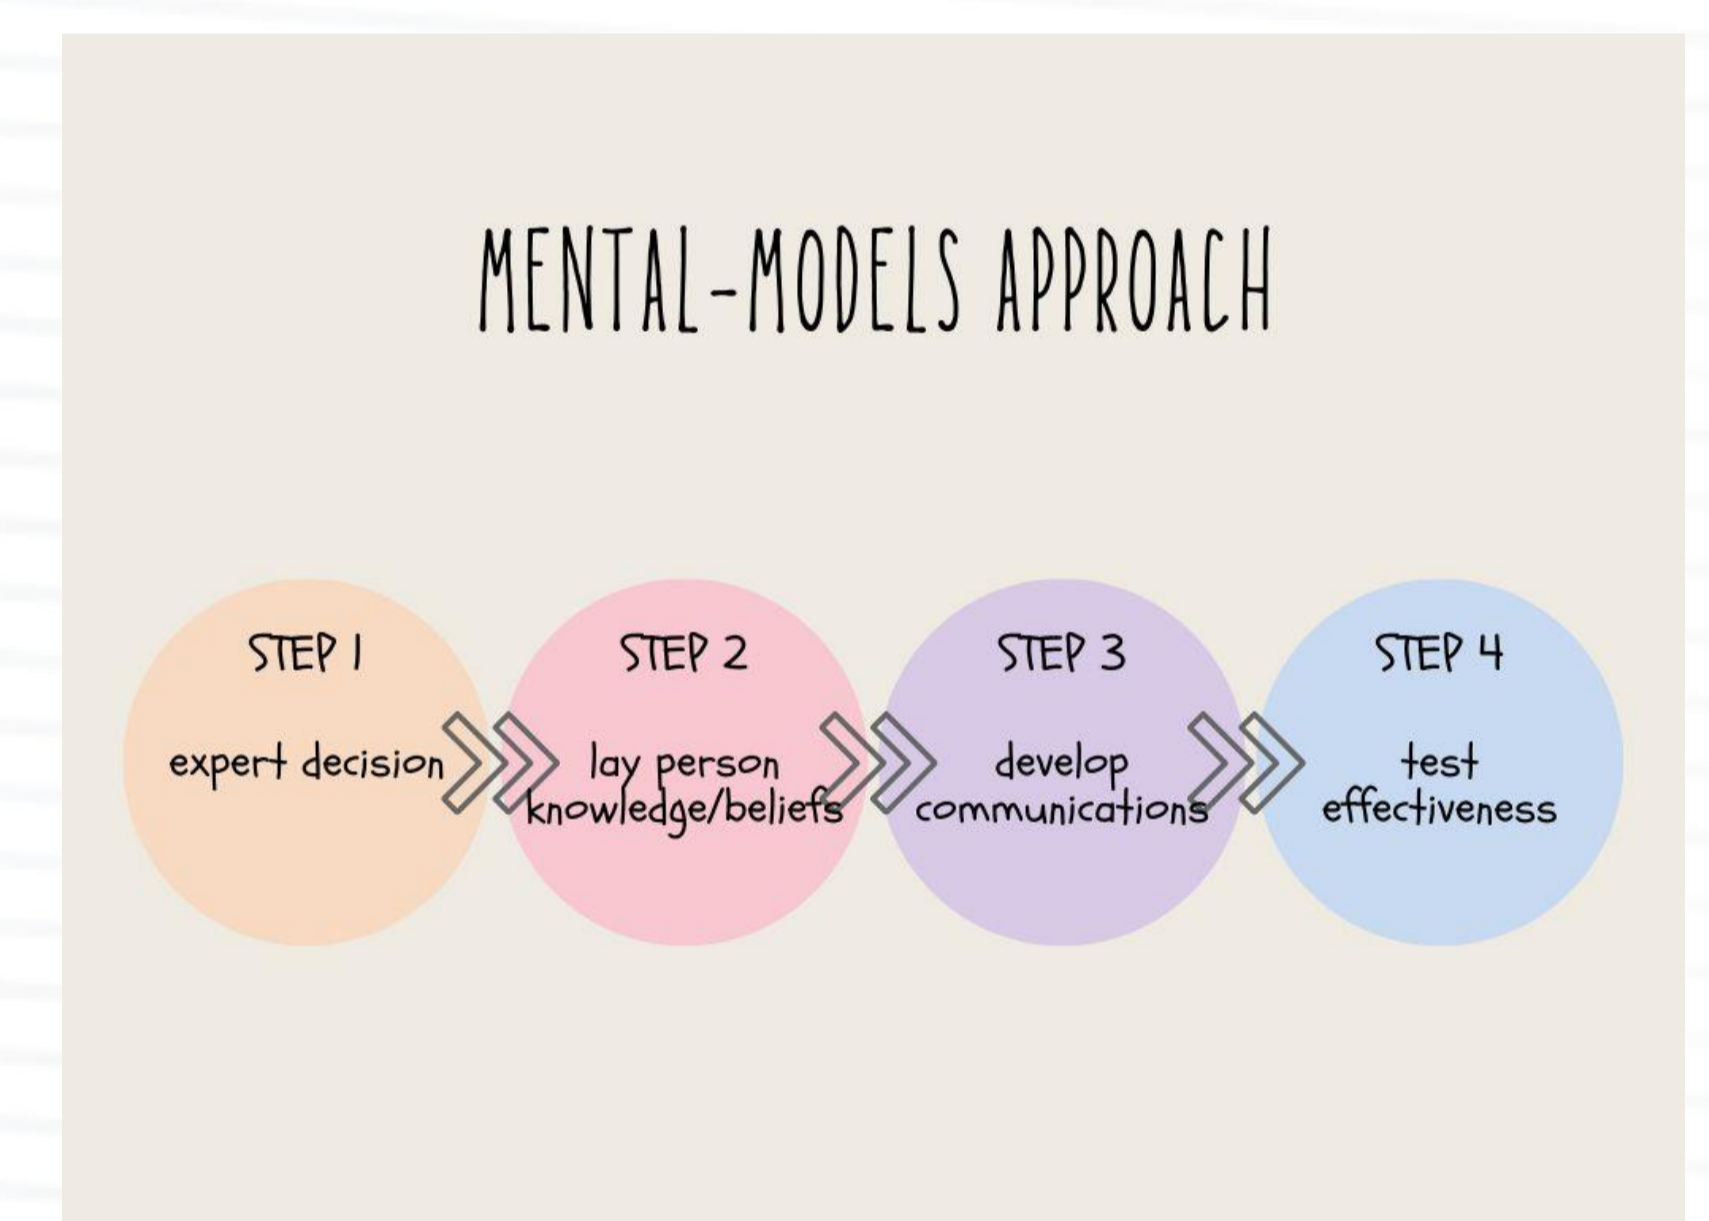

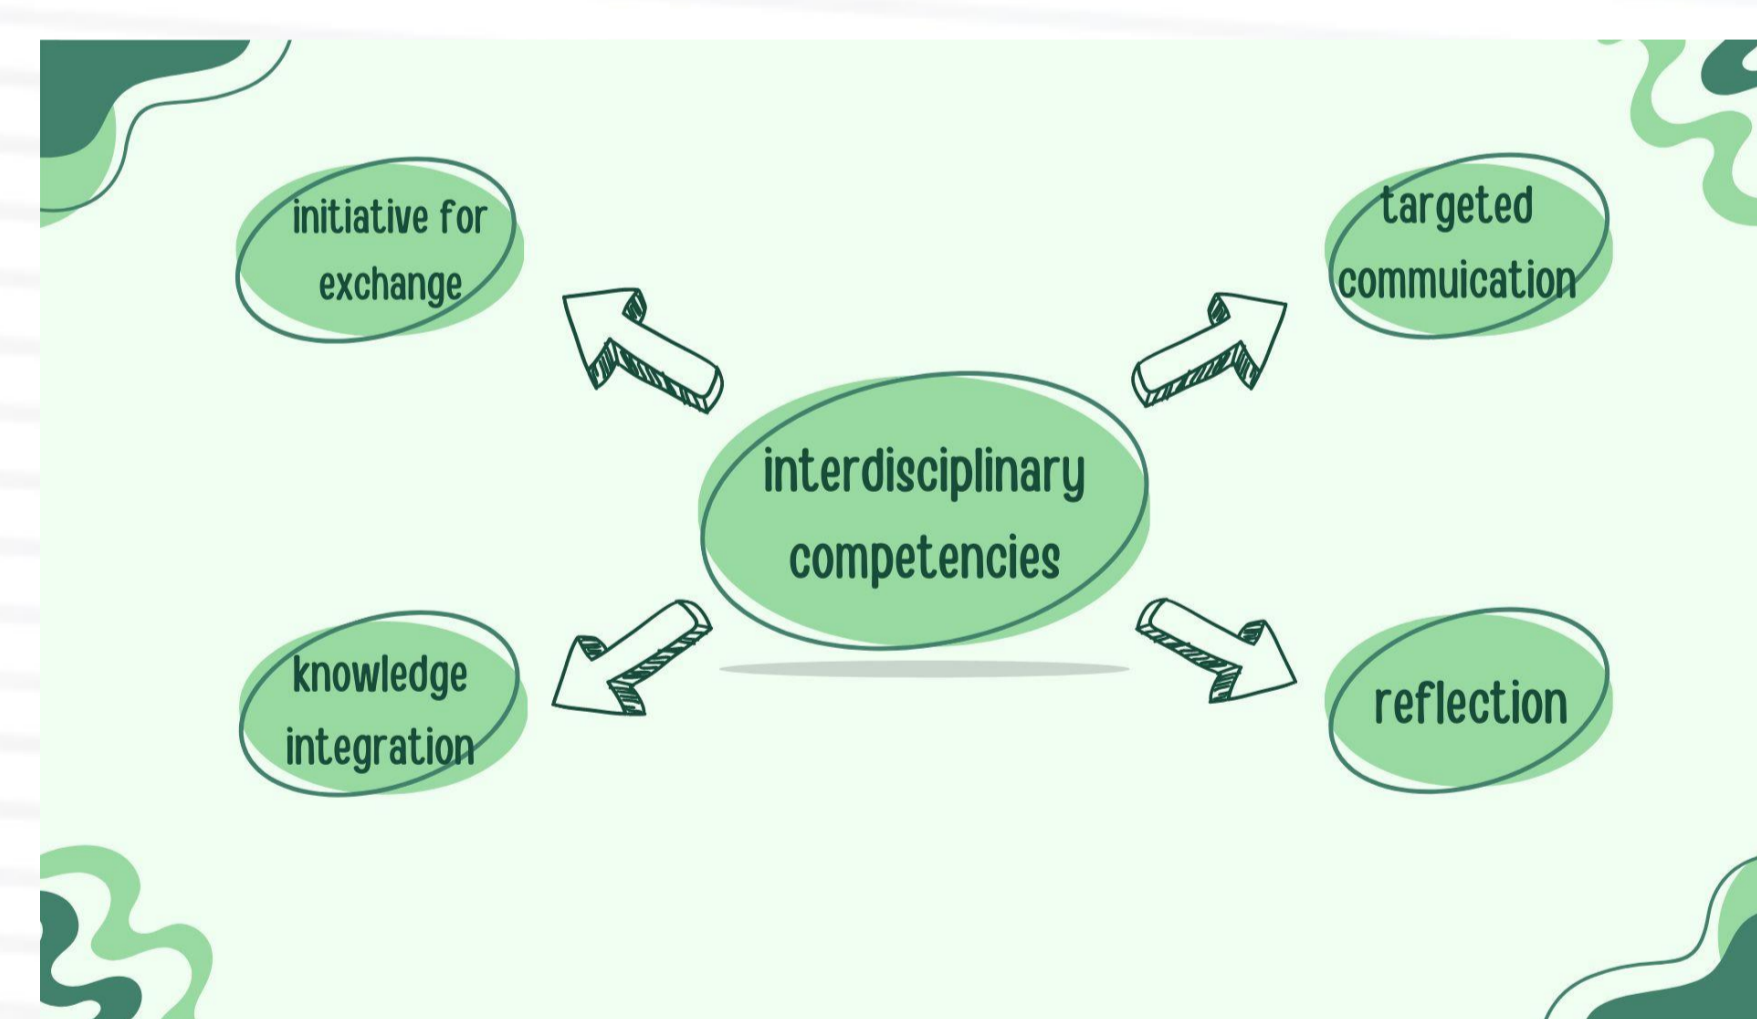

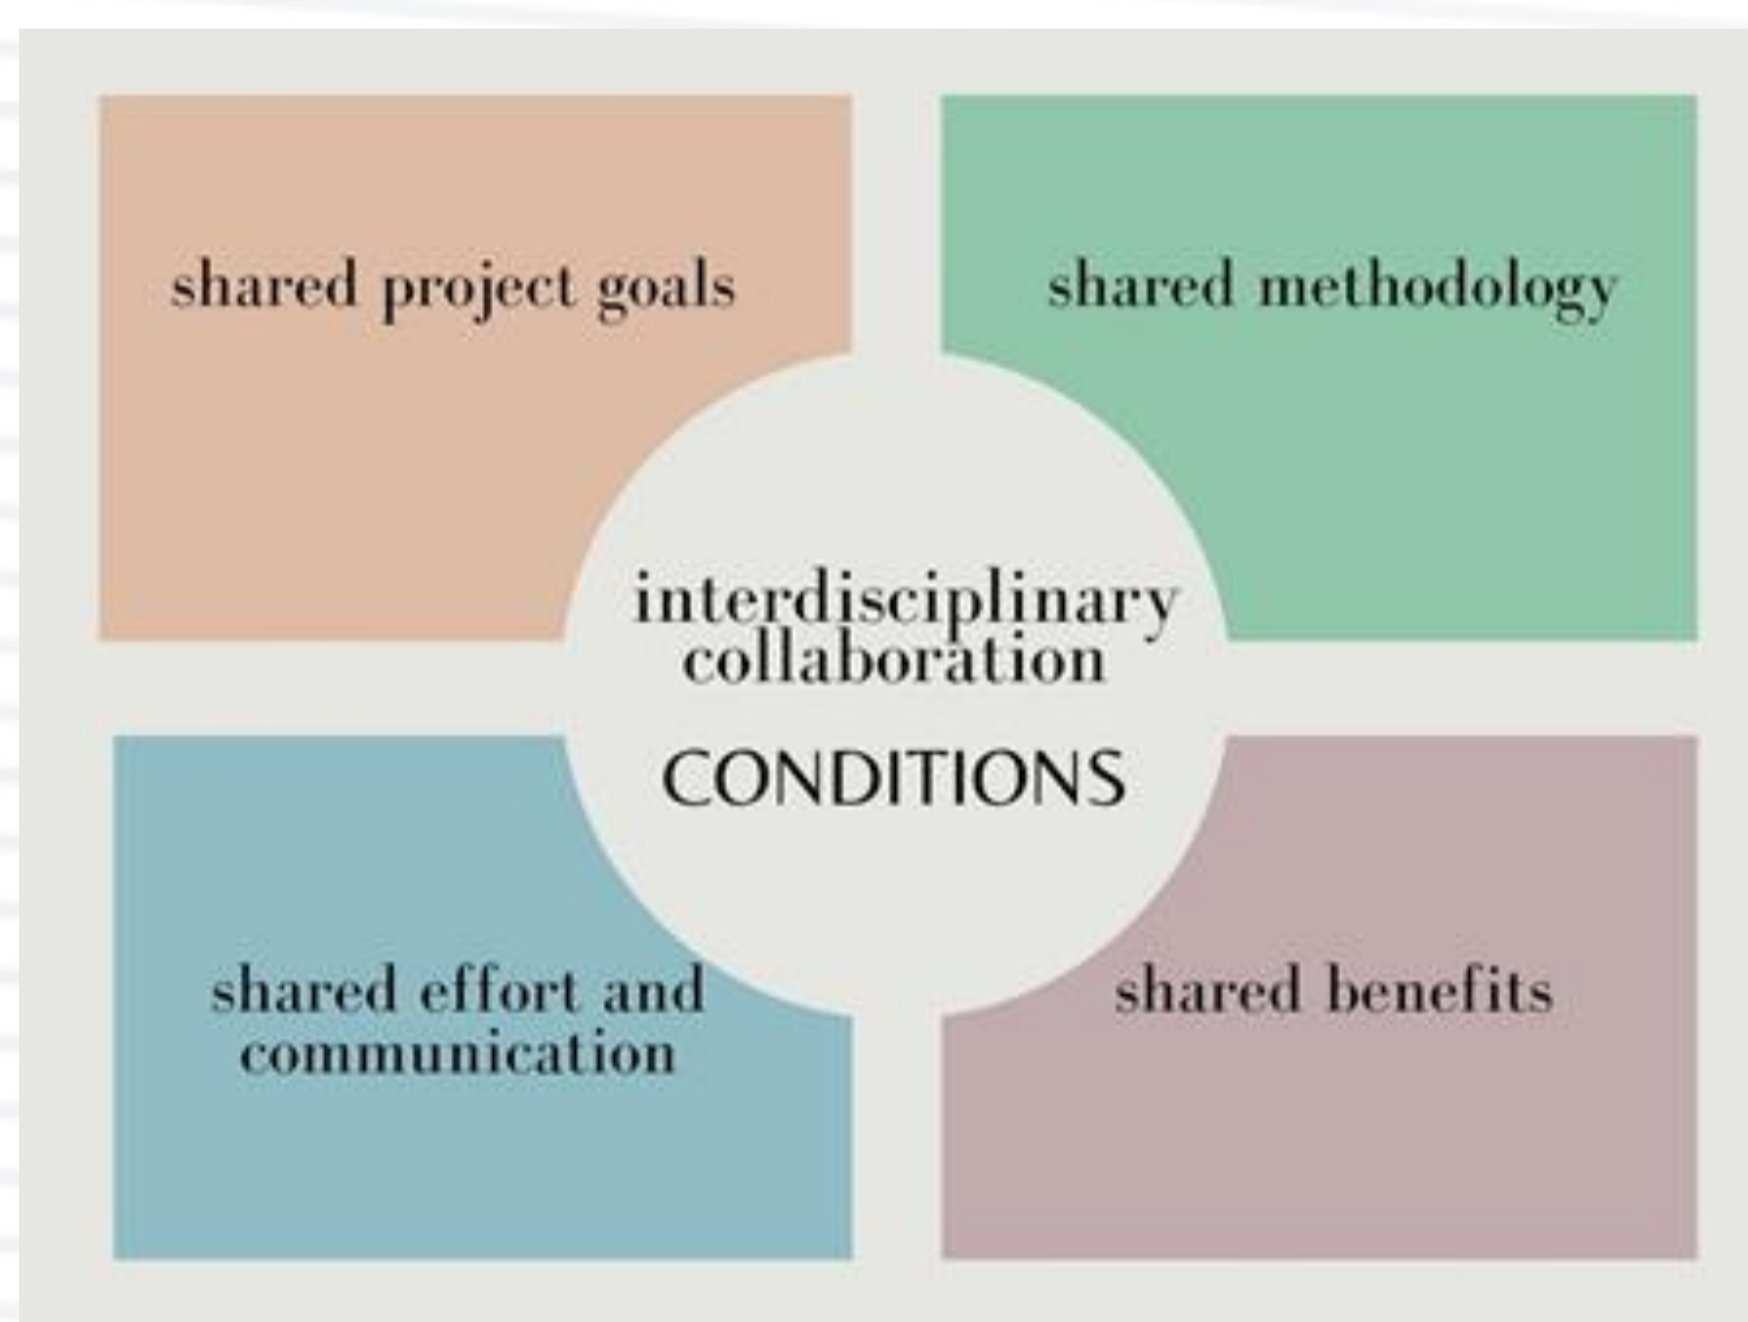

ACTIVITIES

- A **SURVEY** within the alliance assessed the current state of interdisciplinarity and examined dominant mindsets about international collaboration.
- A **WORKSHOP** explored interdisciplinary competencies and best practices of collaboration.
- Two **REPORTS** analysed current models of cognitive and practical interdisciplinary collaboration.
